

# Cristian Quintero

Sr. Frontend Developer with 5+ years of experience.

Javascript · HTML · CSS · SASS · Vue.js · Vuex · Nuxt.js · VueApollo · Node.js · Socket.io · Webpack · Git · Typescript · Storybook · Jest

## EXPERIENCE

Morningstar  
(Direct Lens)  
**Sr. Frontend Developer**  
Jan 2022 – Oct 2024  
Zemoga - Monks

- Led a team of 6 developers in co-creating Direct's web-based version using Nuxt.js and Webpack's module federation, exceeding the expected user adoption rate.
- Collaborated with stakeholders to assess feature feasibility, leading to faster implementation timelines and improved resource allocation.
- Designed a custom internal feature-flag system using Node.js, enhancing deployment flexibility and CI/CD readiness.
- Streamlined workflows by implementing a report generation and notification system with state machines.
- Delivered reusable global and page-specific shortcut systems, improving user interactions across the app.

Morningstar  
(Data Collection)  
**Ssr. Frontend Developer**  
Mar 2020 – Jan 2022  
Zemoga - Monks

- Conducted the migration of 60% of HSA pages using the strangler pattern, ensuring alignment with the company's design system.
- Migrated the Annotation Tool from jQuery to Vue.js to align it with the company's tech stack, achieving 100% migration.
- Published an NPM package on Nexus to be used by 11+ distributed teams.
- Refactored the Annotation Tool's backend using Node.js, SocketIO, and Redis to allow concurrency with an event-driven architecture.
- Improved Annotation Tool's cross-window communication using BroadcastChannel and localStorage's API to store and highlight data.

Phillips 66  
**Frontend Developer**  
Jun 2018 – Jan 2020  
Demand Frontier

- Created a webhook integration between Marketo and Schoox using Node.js and cron jobs to manage data from 5K+ employees.
- Built a dashboard to display employees data and plan nurture campaigns using React.js and Redux.
- Developed several microsites and landing pages to revamp the lead generation process.
